

Pancreatic Cancer UK

Fundraising at work

Taking on pancreatic cancer together

Pancreatic cancer has the lowest survival rate of the most common cancers,

 **93%**

of people diagnosed in the UK won't survive beyond 5 years

Around

10,000 people

are diagnosed each year in the UK – that's 27 people every day

Chronic underfunding in research means that survival has barely changed in

decades

The difference YOU can make

Fund ground-breaking research

into early diagnosis and new treatments to transform the future for people facing this devastating disease

We support Pancreatic Cancer UK at work. Will you join us?

“ Cirkle loves to create a splash, so we organise a different fundraising event every year to support Pancreatic Cancer UK. Our entire team gets involved, and it's the perfect way for us to remember our wonderful managing director, Anne, who lost her fight against pancreatic cancer in 2014.

In the past few years, we've entered a team into a Tough Mudder, organised a sponsored walk and also created new challenges, such as the competition 'Plank for Panc'. We are determined to keep her memory alive by raising as much awareness and money as possible for Pancreatic Cancer UK. ”
