

# The Cambridge HPB Surgery Symposium

Friday, 24th June 2022

A FREE face-to-face meeting with an option to join-in virtually ([via Teams](#))

The HPB Surgery team are delighted to invite you to **The Cambridge HPB Surgery Symposium**. This exciting full day meeting aims to cover both the daily challenges and the most up-to-date advances in management of patients with pancreatic and liver diseases.

The symposium will feature talks and discussions, delivered by some of the UK's leading multi-disciplinary specialists in various aspects of HPB Surgery. This meeting will be relevant to everyone who is involved in the management and care of this complex group of patients.
