

How to use accessibility tools on our website

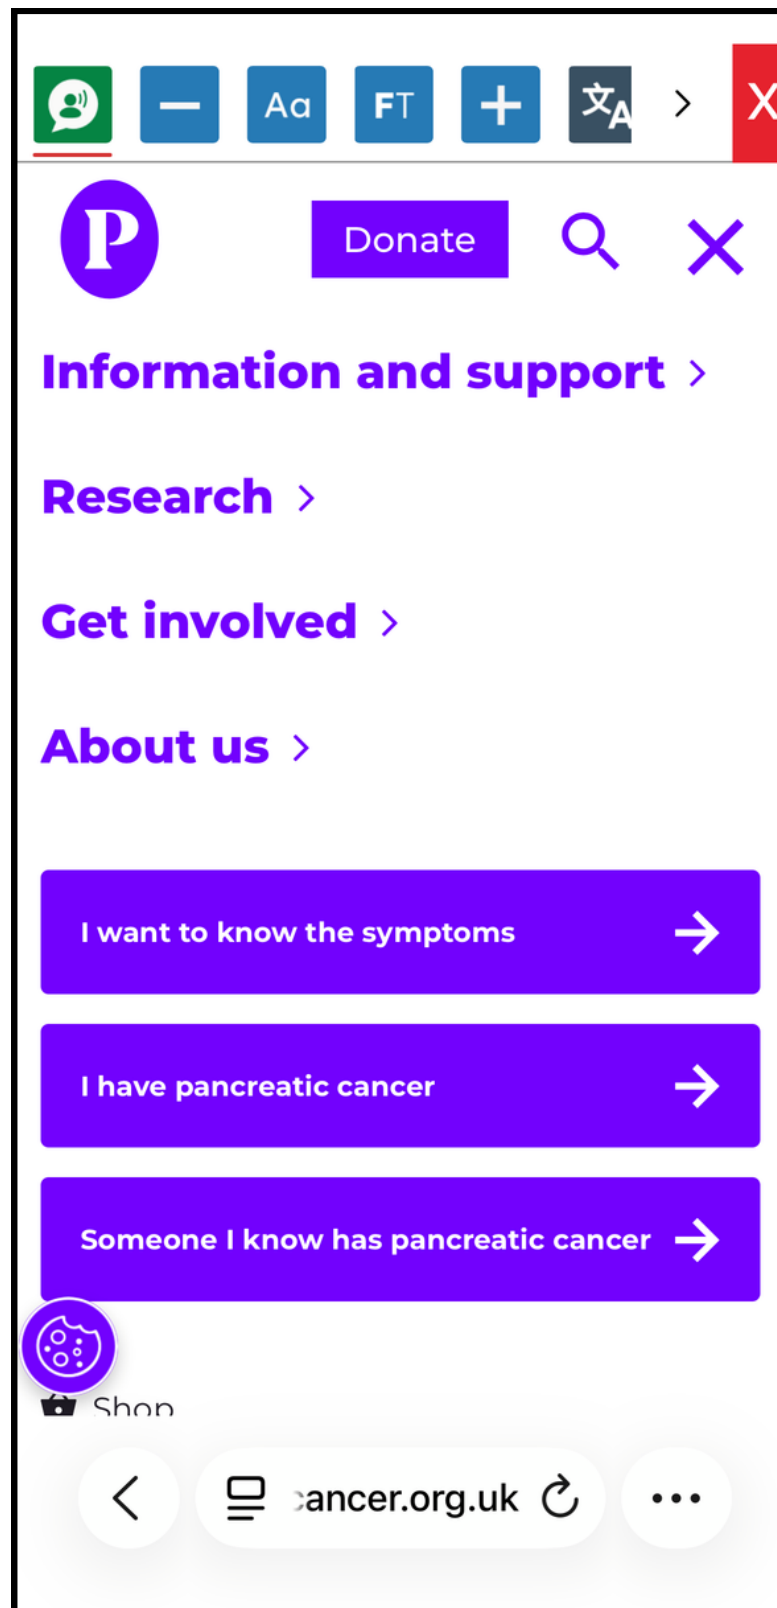

Click the
menu at
the top
right of
your
screen

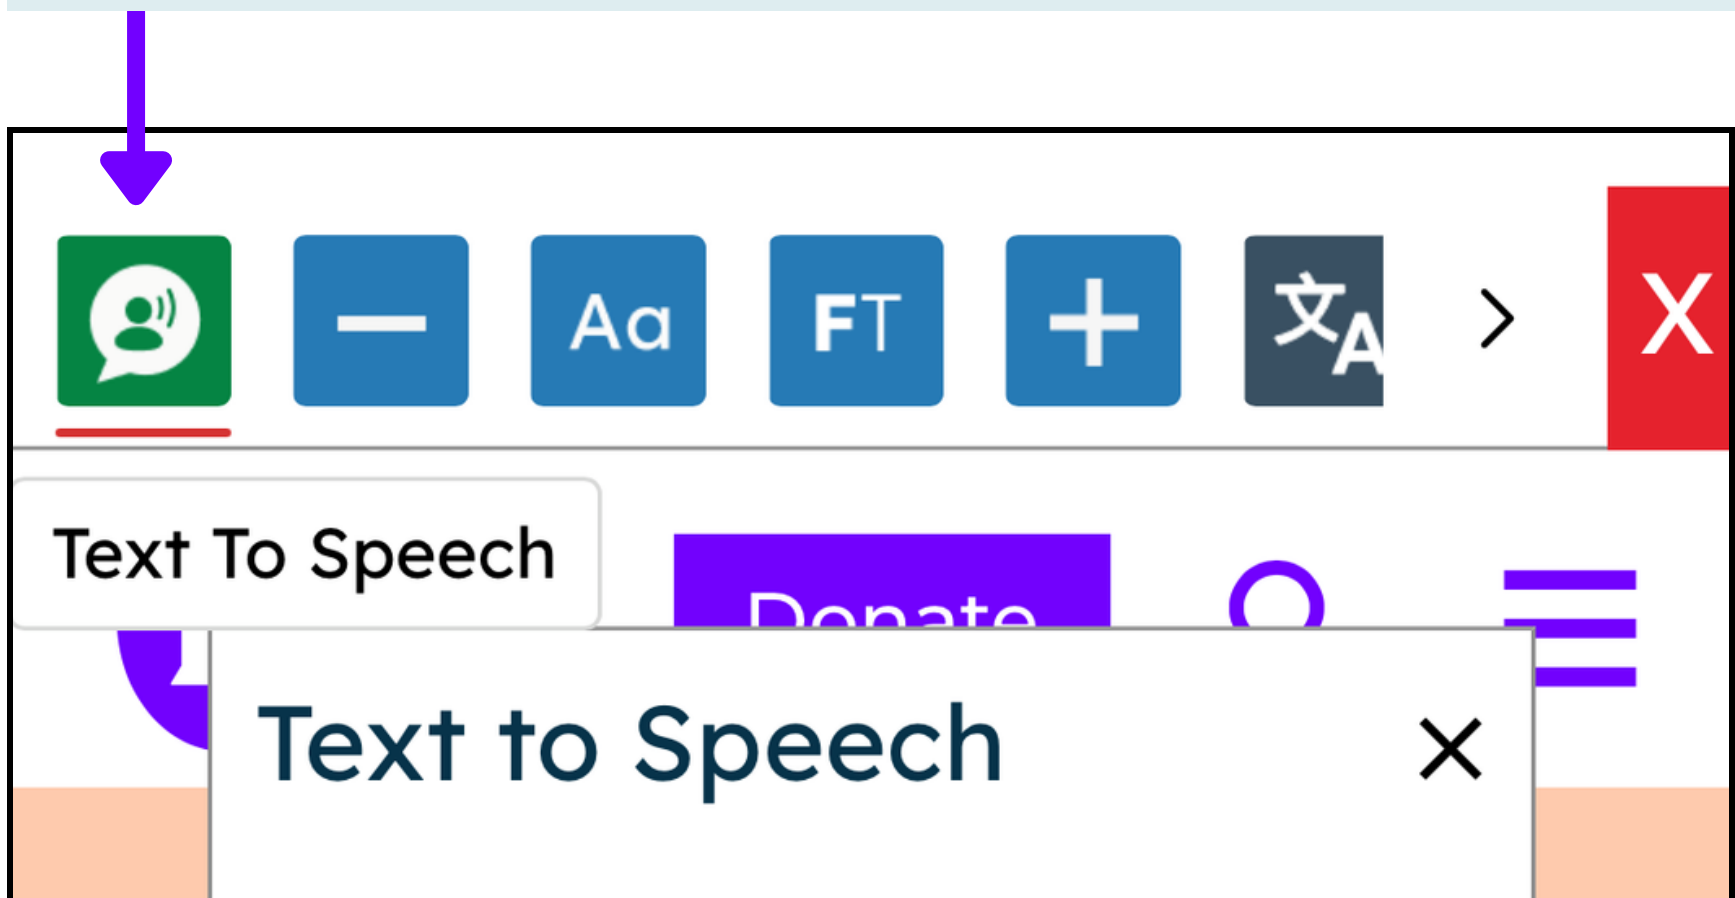

**Scroll down
and click
'Accessibility
tools'**

A toolbar
will appear
at the top
of your
screen

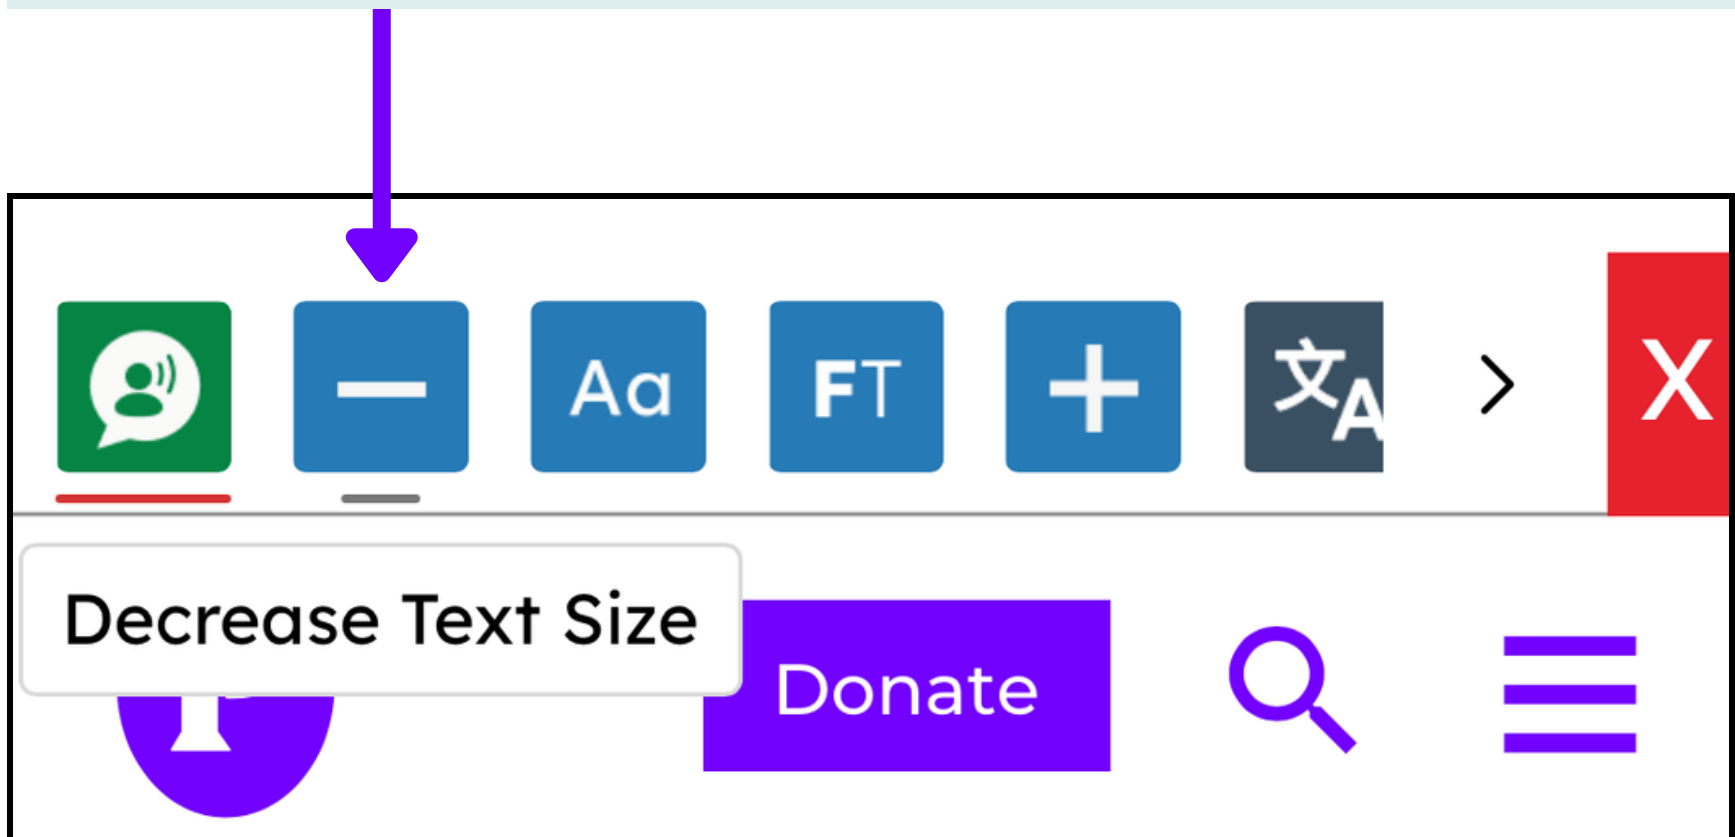

1. Text to speech

The first button is for text to speech.
Click this to have the page read out
to you.

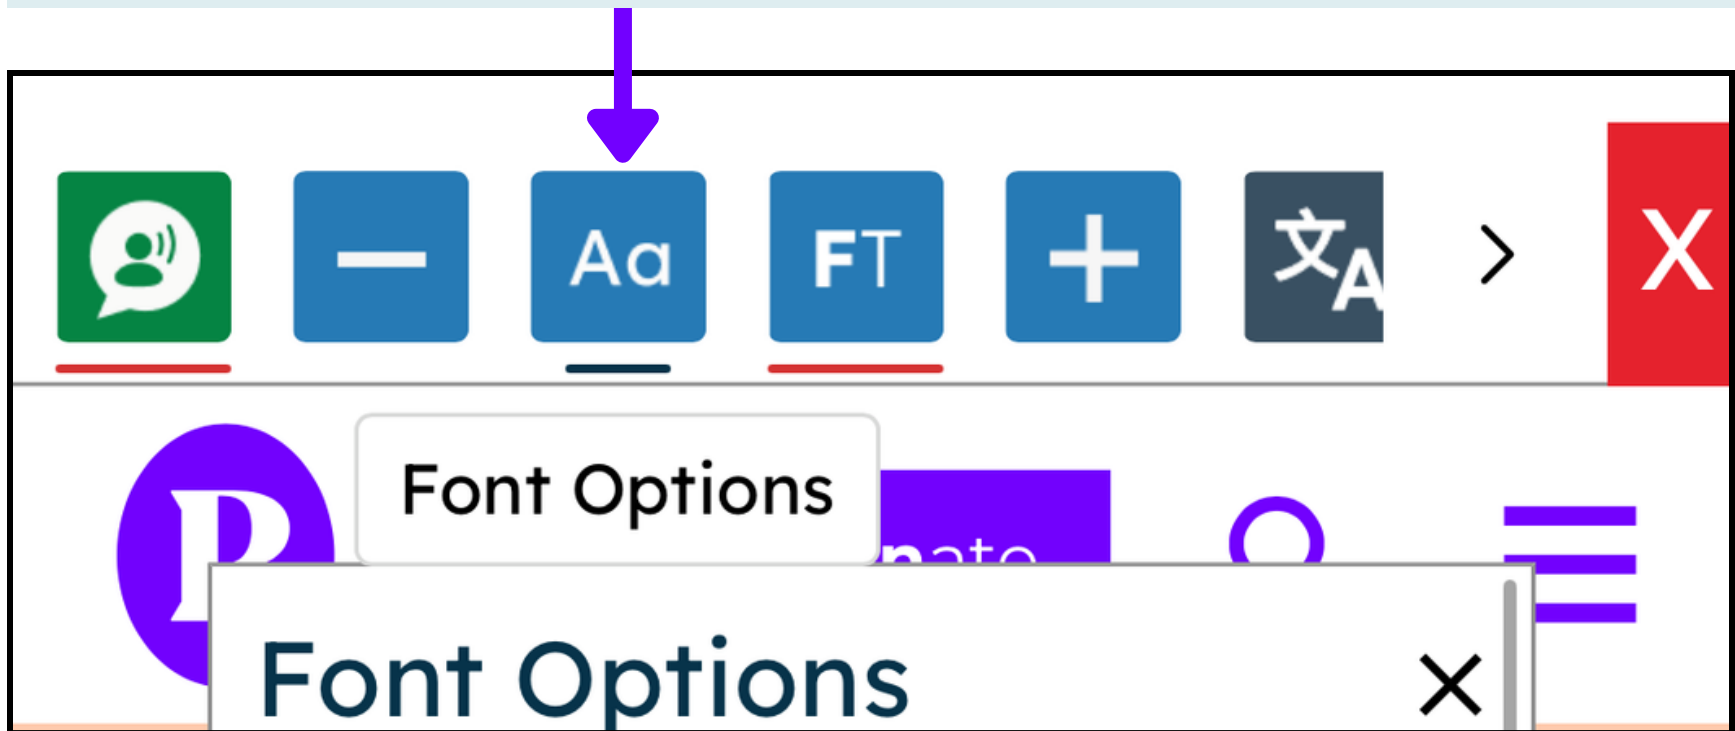

2. Decrease text size

Click the second button to make the size of text smaller. Keep clicking to keep making the text smaller.

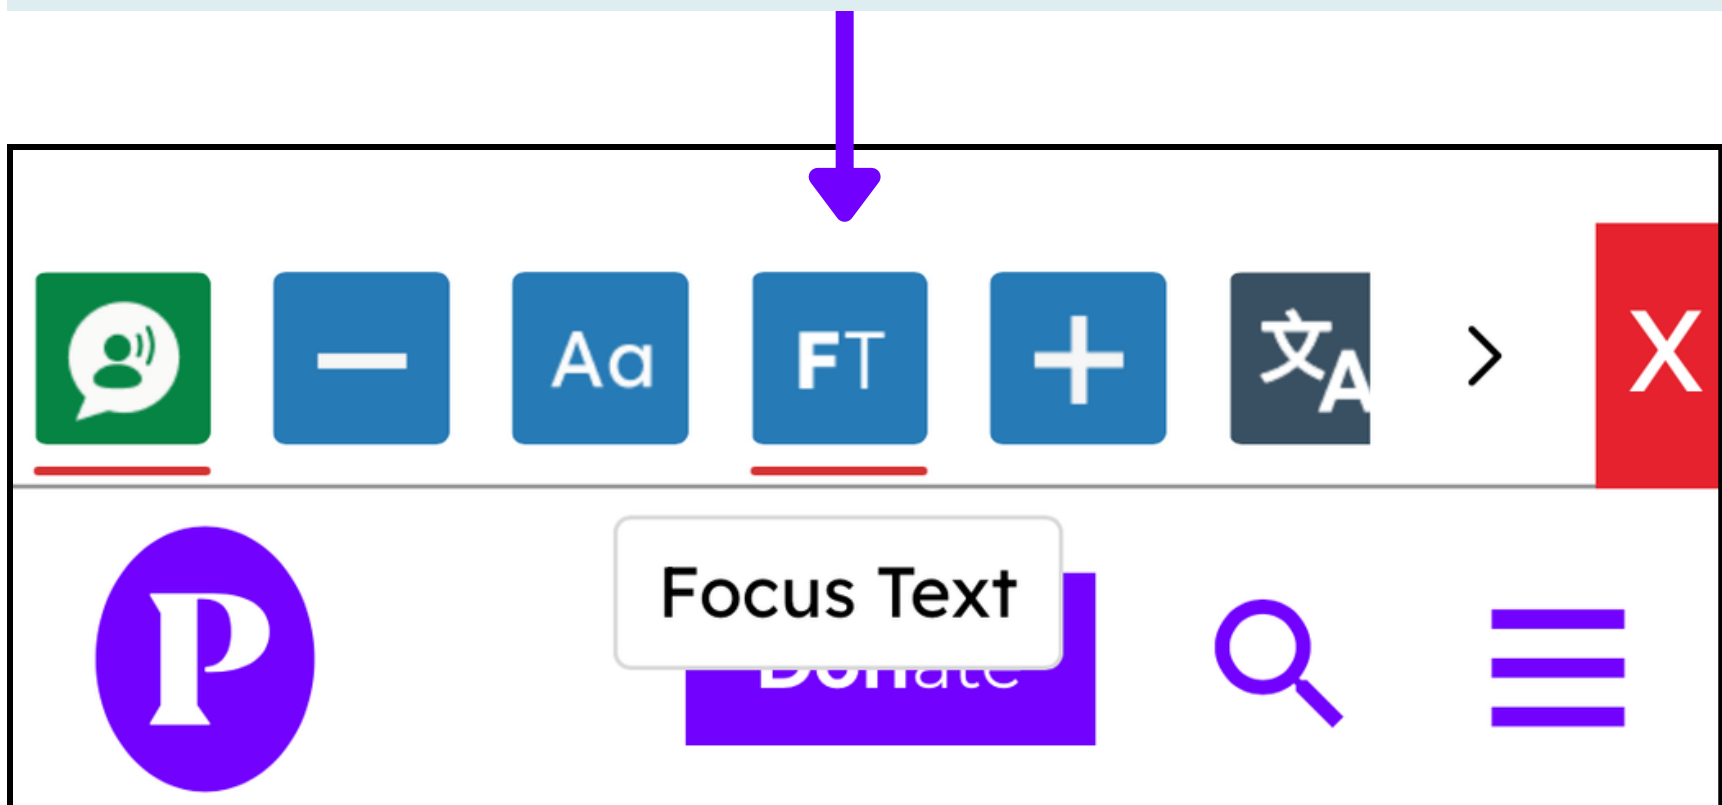

3. Font options

Click the third button to change the font, the distance between lines of text and the amount of space between letters.

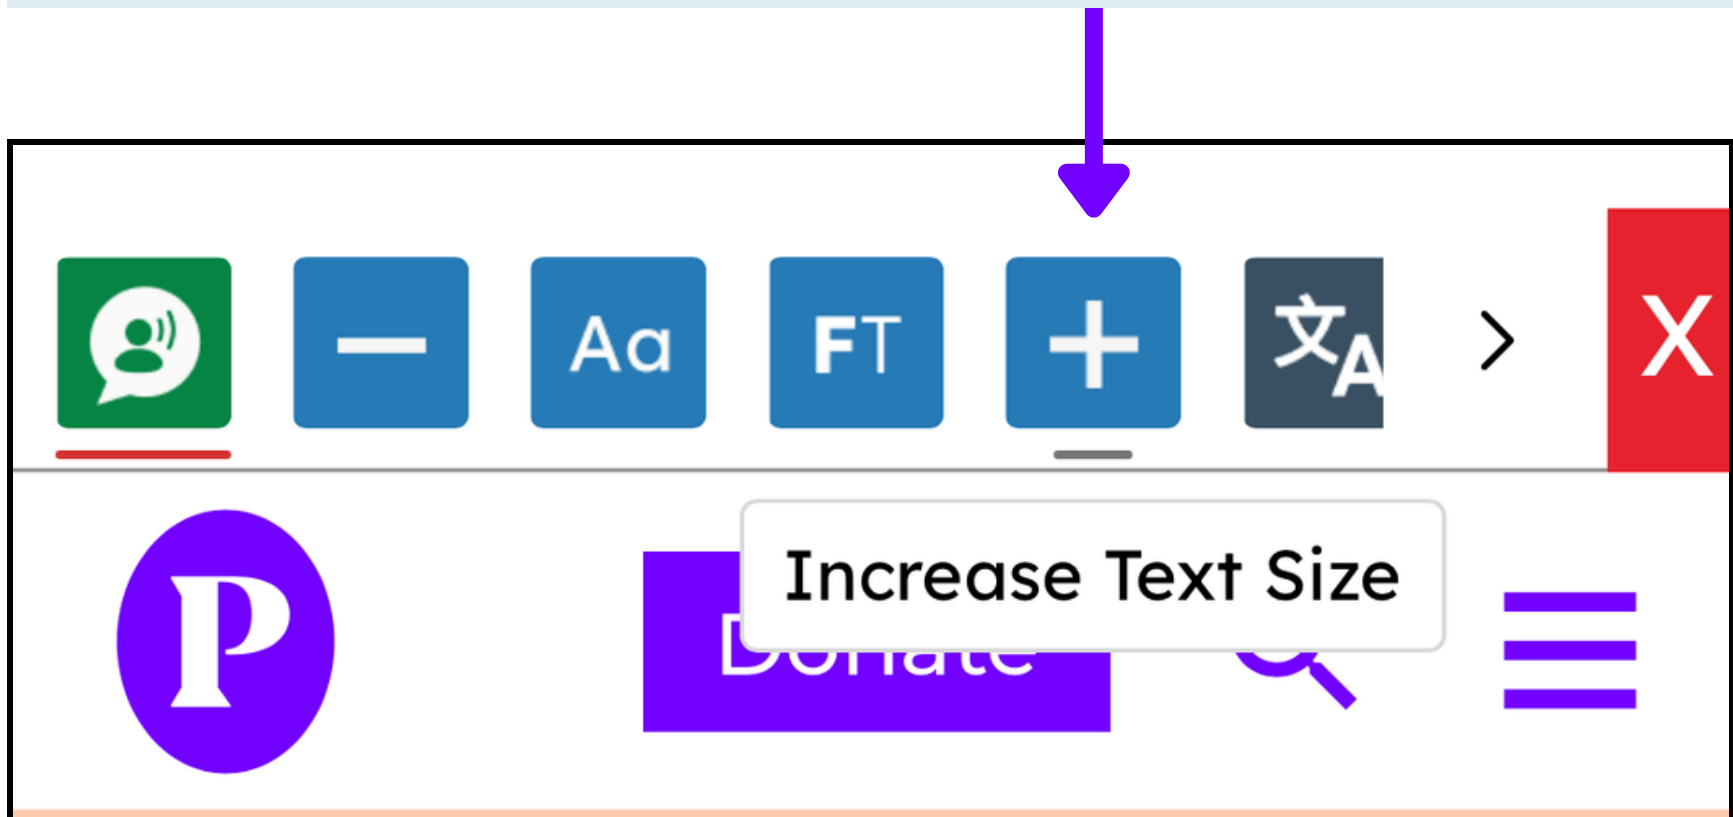

4. Focus text

Click the fourth button to highlight parts of the word to help you read them.

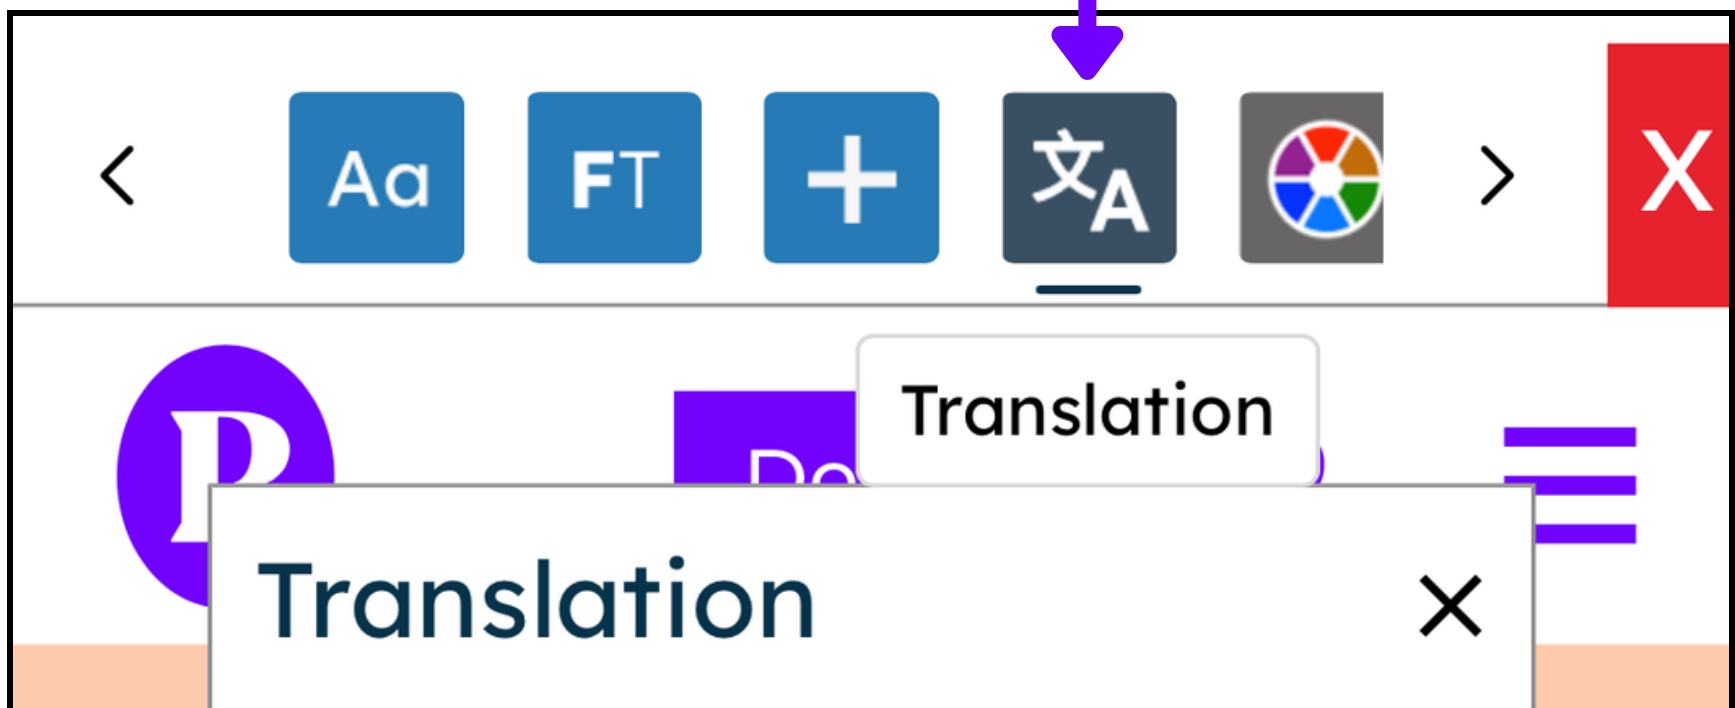

5. Increase text size

Click the next button to make the text on the page bigger. Keep clicking to keep making it bigger.

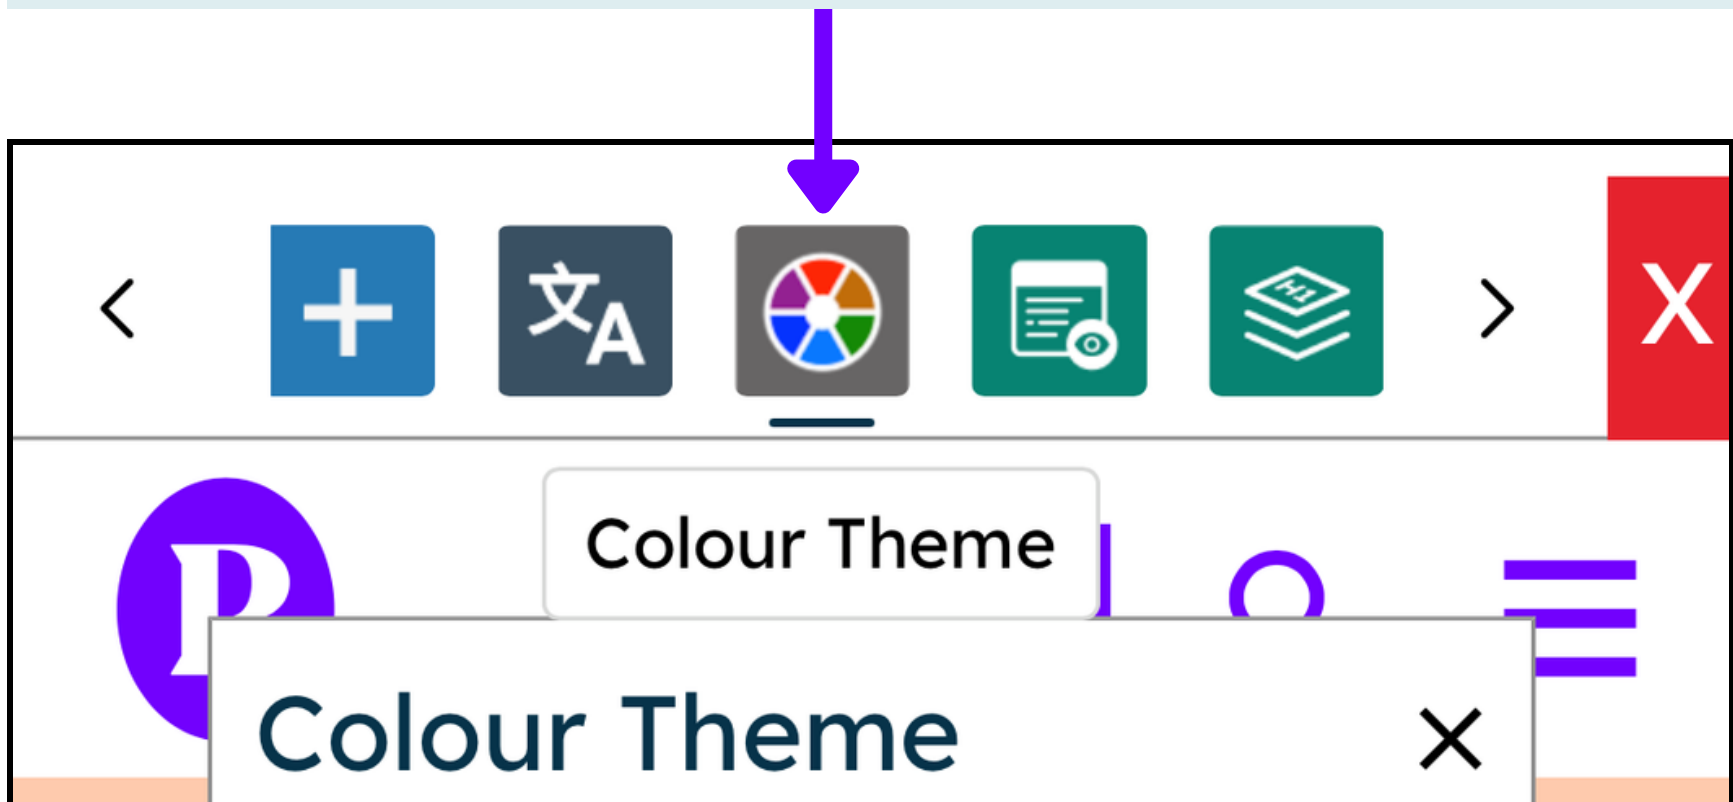

6. Translation

The next button will translate the website into another language.

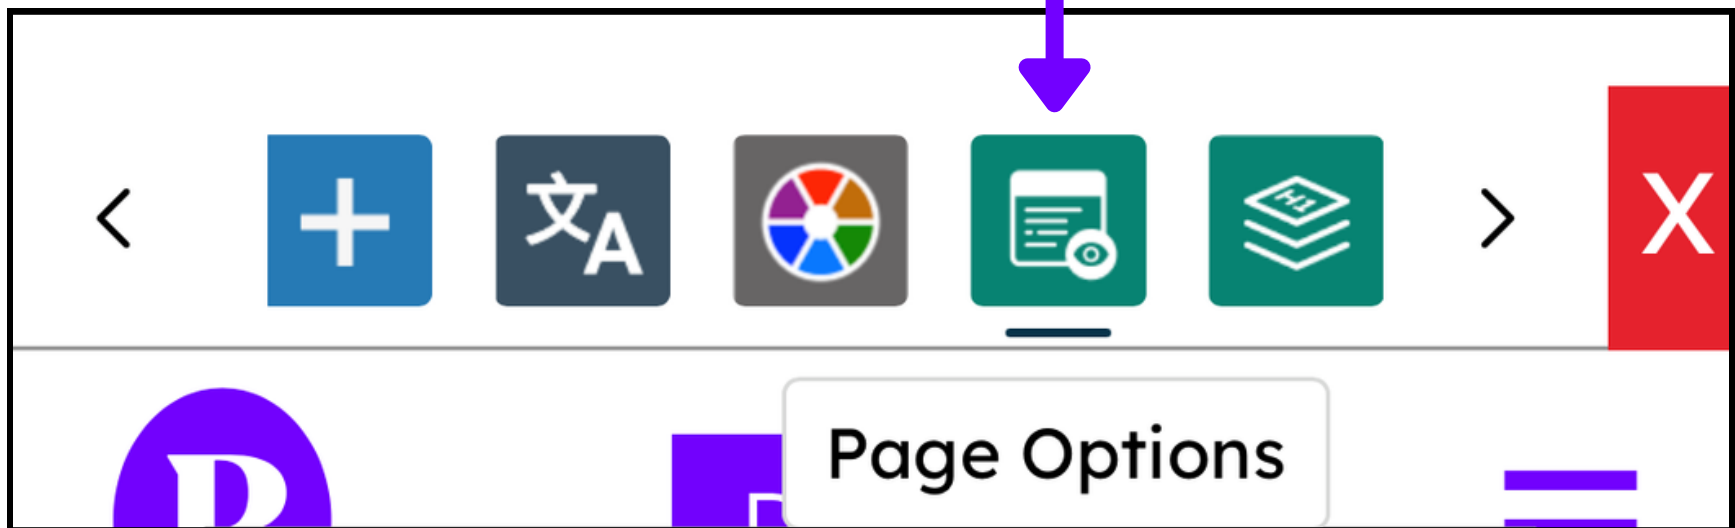

7. Change colour

Use the colour theme button to change the colour and contrast of the website.

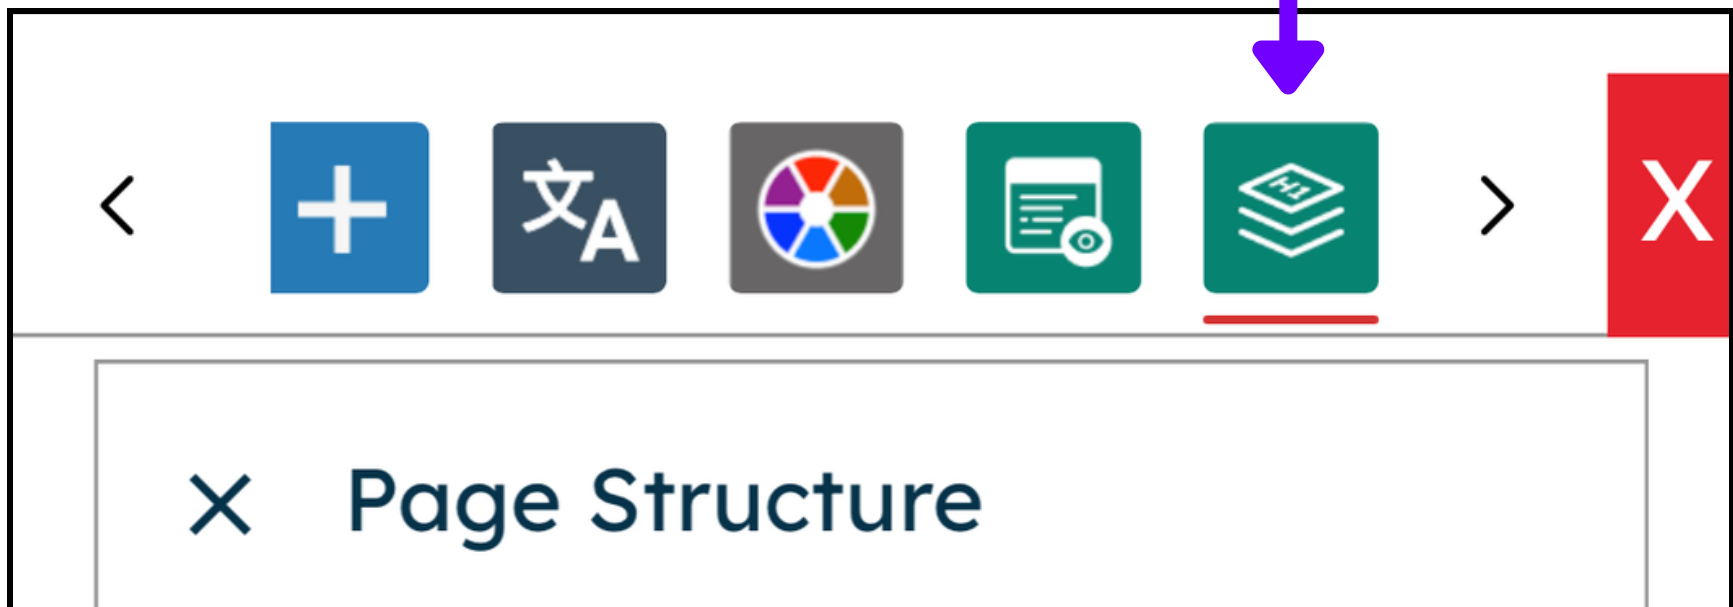

8. Page options

Use the page options button to pause animations and video, hide images, view image descriptions or make the website into plain text.

9. Page structure

Use the page structure button to see an overview of the content on the page you are on.

Undo the settings

To turn off the toolbar, click on the X on the right side of the screen and the webpage will return to standard settings.
